Mechanics on Waitlisting

- Not Automatically Granted.** Classes that you select in this module are not automatically granted to you. You will need to wait for the offering unit to process the waitlists to see if you are granted a slot in your waitlisted classes.
- Open Waitlists.** You can waitlist in any class as long as it is open. Please see the info on when the waitlist for a certain course will be closed. When the waitlist is closed, you cannot apply for a waitlist anymore. However, a closed waitlist can be opened again at the discretion of the offering unit.
- Schedule of Waitlist Processing.** It is up to the offering unit on when the waitlists will be processed after it is closed. Do check the remarks section of the class you wish to waitlist in to know when to come back and check the site again to see if a certain waitlisted class has been granted to you. Please contact the offering unit if you have any queries on waitlist processing of their offered courses.
- Non-Deterministic Assignment.** Granting of class slots is the prerogative of the offering unit. The unit can choose to assign the slots in a "first come, first served" basis, by "random assignment", or by any prioritization scheme.
- Resolution of Conflicts.** There are two types of class conflict: overlapping schedules and same subjects. Since the waitlisting module of this module allows you to include multiple classes in your list of desired classes, there will be instances that a granted slot during the processing of waitlists conflicts with another desired subject. For these cases, the granting of a waitlisted class will automatically cancel all your pending waitlist slots that conflicts with the granted waitlist slot.
- Cancellation of Waitlisted Slots.** The unit may choose to reset their waitlists on a regular basis making all current waitlisted slots cancelled. If this happens, you may see the cancelled classes under Canceled Waitlists. Feel free to select the class again in case waitlisting is still open to get another chance of being granted a slot in that respective class.

IMPORTANT: One of the new ODS features and procedures to be used starting Summer 2019 registration is the Student Picked Temporary Registration Form (Form 5A). Under this feature, students will print their own Form 5A so that they can proceed directly to the next step of the registration process (as stipulated by their home college) during the regular registration period.

- Class delegations allow units to have control over slots of classes they do not offer. For delegated classes, you may enroll at your home unit instead of at the offering unit as long as there are still available slots. For cancellations, you may cancel your slots at your home unit through the Online Advising module or at the unit indicated on the "Cancel All" column on the "My Desired Classes" table below.
- Classes that are part of a block cannot be enrolled individually. Thus, if you opt to be part of a block, you must be enrolled in all of the classes in the block. If you wish to enroll on a class that is part of a block but not the block itself, you may request the unit that formed the block to either (1) increase the non-block slots, or (2) remove that class from the block.

Please print your Form 5A by clicking on the button below.

Use A4 sized paper to print your Form 5A.

Please also make sure that your PDF reader is set to A4 size (210 x 297 mm) and Landscape orientation before printing. Some readers are set to Letter size (216 x 279 mm) and Portrait orientation by default so you have to adjust your PDF reader accordingly.
